

Notes to the Financial Statements

Note 1 Reporting Entity

Far North Luzon General Hospital and Training Center was created by the virtue of RA 8536, dated February 23, 1998 during the term of His Excellency President Fidel V. Ramos.

FNLGH&TC is located at Quirino, Luna, Apayao catering mostly to the people of the Province of Apayao and the people of the adjacent towns of the Province of Cagayan.

FNLGH&TC's vision is to be a health institution that is a Center of Wellness as well as a Training Institution of Health Profession.

FNLGH&TC's mission is to provide a tertiary quality care to patient thru a cost effective, efficient, humane and comprehensive array of health care and a venue for training of health professionals and indigenous health workers in the area.

Note 2 Statement of Compliance with the Philippine Public Sector Accounting Standards

The financial statements of the FNLGH&TC have been prepared in accordance with the Philippine Public Sector Accounting Standards (PPSAS). These financial statements of the FNLGH&TC are the first to be prepared in accordance with PPSAS and certain transitional provisions as identified in *note 3*.

Note 3 Basis of preparation and authorization for issue

Basis of measurement

These financial statements are prepared on an accrual basis of accounting in accordance with PPSAS. Transactions and other events are recognized in financial statements when they occur and recorded in the periods to which they relate.

FNLGH&TC applies historical cost principle except where stated in *note 4*. Accounting policies have been applied consistently throughout the year. The financial year is from January to December.

Functional currency

The functional and presentation currency of the FNLGH&TC is the Philippine peso.

For CY 2015, the agency had no transactions involving foreign currency.

Critical accounting estimates

Preparing financial statements in accordance with PPSAS requires FNLGH&TC to make estimates, judgements and assumptions in the selection and application of accounting policies and in the reported amounts of assets, liabilities, revenues and expenses. For this reason, actual results may differ from those estimates. Accounting estimates and underlying assumptions are reviewed on an on-going basis, and revisions to estimates are recognized in the year in which the estimates are revised and in any future year affected. Significant estimates and assumptions that may result in material adjustments in future years include: actuarial measurement of employee benefits; selection of useful lives and the depreciation method for property, plant and equipment; impairment on assets; and contingent assets and liabilities.

Transitional provisions

PPSAS standards, with effect from January 1, 2014, are applied in accordance with PPSAS transitional provisions as follows:

For PPSAS 1, “Presentation of Financial Statements”, as permitted for first year adoption, comparative information has not been provided except for the statement of financial position;

For PPSAS 17, “Property, Plant and Equipment”, FNLGH&TC has capitalized all management assets acquired as at January 1, 2015 and thereafter. All items of property, plant and equipment were initially measured at cost less accumulated depreciation as at January 1, 2015.

Authorization for issue

These financial statements are approved and certified by the Medical Center Chief and the Chief Accountant. These financial statements are authorized for issue on July 20, 2015.

Note 4

Significant accounting policies

Inventories

The costs of ending inventory of office supplies and materials and other inventory items are computed using the Weighted Average Method.

Supplies and materials purchased for inventory purposes are recorded using the Perpetual Inventory System.

Petty Cash

Petty Cash is maintained under the Imprest System. All replenishments are directly charged to the expense account. The Petty Cash is not used to purchase regular inventory items for stock.

Property, Plant and Equipment

All property, plant and equipment is stated at historical cost, less accumulated depreciation. This includes costs that are directly attributable to the acquisition of the asset. The threshold for recognition of property, plant and equipment as an asset is ₱10,000.00 or more per unit.

Subsequent costs are included in the asset's carrying amount or are recognized as a separate asset only when it is probable that future economic benefits associated with the item will flow to the FNLGH&TC and the cost of the item can be measured reliably. Repairs and maintenance are charged to surplus or deficit in the statement of financial performance in the year in which they are incurred.

Depreciation of property, plant and equipment is calculated using the straight-line basis over the estimated useful lives, except for land, which is not subject to depreciation. Assets under construction are not depreciated, as they are not yet available for use.

The estimated useful lives are as follows:

Particulars	Estimated Useful Life (in years)
Hospital and Health Centers	30
Office Equipment	5
Furniture and Fixtures	10
Information and Communication Technology Equipment	5
Books	5
Communication Equipment	10
Firefighting Equipment and Accessories	7

Liabilities

Payable accounts are recognized and recorded in the books of accounts only upon acceptance of the goods/inventory/other assets and rendition of services to the agency.

Other current liabilities include Due to NGAs, Due to BIR, Due to Regional/Branch Offices, Guaranty/Security Deposits Payable and Other Payables.

Revenue Recognition

Subsidies and Donations and Grants

Notice of Cash Allocation (NCA) is recorded in the Regular Agency (RA) books as well as those income/receipts which the agency is authorized to use.

Subsidy from National Government is shown net of reversion of unused Notice of Cash Allocation.

Income/receipts which the agency are not authorized to use and required to be remitted to the National Treasury are recorded in the National Government (NG) books.

Grants and donations in kind are recorded at cost.

Revenue from exchange transactions

Exchange transactions are those in which FNLGH&TC sells goods or provides services. Revenue comprises the fair value of consideration received or receivable for the sale of goods and services. Revenue is shown net of discounts. Revenue is recognized when it can be reliably measured; when the inflow of future economic benefits is probable and when specific criteria have been met.

Revenue from exchange transactions of FNLGH&TC includes hospital fees and sales revenue from the pharmacy operations.

Expense recognition

Expenses are recognized when goods/services are delivered/rendered and accepted by the FNLGH&TC.

Financial expenses such as bank charges are separately classified from MOOE.

Note 5

Correction of Fundamental Errors

Fundamental errors or prior years are corrected using the Accumulated Surplus/(Deficit) account.

Errors affecting current year's operation are charged to the current year's accounts.
